

USER STORIES

1. As a city financial manager, I would like to get a listing of all the road signs in inventory so that I can do my month end inventory analysis.
2. As a city financial manager, I would like to enter prices for signs so that customer invoices will be correct.
3. As a city financial manager, I would like to get a forecast of sign sales that have been reserved, so that I can budget for future income.
4. As a sign reservation clerk, I would like to view all current open reservations, so that I can plan for daily activity.
5. As a sign reservation clerk, I would like to be able to enter expected pick-up dates so that I can plan for daily activity.
6. As a sign reservation clerk, I would like to get a list of all sign inventory numbers so that I can predict shortages.
7. As a city engineer, I would like to reserve signs for future dates so that I can accurately predict cost of road projects.
8. As a traffic manager, I would like to be able to check sign inventory to ensure there is a sufficient supply of each category.
9. As a traffic manager, I would like to request an increase in inventory for a particular sign, or for a whole category of signs, so that the current inventory will fulfill my needs.
10. As a purchasing manager, I would like to get a listing of all signs in a chosen category, ordered by name, so that I can predict when to purchase more signs in that category.
11. As a inventory manager, I would like to be able to tag signs as “unusable” due to quality or age, so that I can release them from inventory once the depreciation value is determined.
12. As a city engineer, I would like to be able to reserve and pickup signs, so that I can place them in accordance with the police dept.
13. As a city councilperson, I would like to see how many signs are currently reserved by my constituents so that I can keep track of sign congestion in my neighborhoods.
14. As a database admin, I would like to be able to add new categories of signs so that I can keep the database up-to-date with inventory.
15. As a database admin, I would like to add new sign languages, so that the city can support different cultures.
16. As a database admin, I would like to add images to each sign record so that customers can get a visual representation of the sign they are reserving.
17. As a database admin, I would like to be able to add categories, so that we can manage future sign types.
18. As a customer, I would like to be able to select a sign to reserve, reserve the sign(s), and pick them up, so that I can place them for the city.
19. As a customer, I would like to be able to view sign categories, so that I can find the type of sign I need.
20. As a customer, I would like to be able to determine the height of a sign, so that I can determine if it meets my needs.
